Sprinkler Installation Compliance**

Rob,

This letter is to inform you that the sprinkler system modifications recently performed and completed at this facility, were done in accordance with NFPA #13, state, and local codes.

The scope of the project was to modify the existing wet sprinkler system to accommodate the new tenant floor and ceiling changes and to place the system back in service. The existing sprinkler riser, and alarm devices were not modified, and also remain as is.

Please let us know if you have any questions or require any additional information.

Sincerely,

Paul Tardif
