

**DOCUMENT 00850**

**NATIONAL ACCOUNTS**

**PART 1 – GENERAL**

**1.01 GENERAL CONDITIONS**

- A. The Owner has negotiated pricing and delivery terms with designated suppliers of material and equipment to be incorporated into the Work. Costs for receiving, unloading handling, storage, protection from the elements, and installation are to be included in the Contract Sum submitted by the Contractor. **Contact Architect or FMC Project Manager for most current National Accounts Pricing Form.**
  
- B. Contractor's responsibilities for products supplied under National Accounts are the same as if Contractor had negotiated purchase orders, including responsibility to execute final purchase-order agreements.
  
- C. Contractor shall purchase, receive, unload, handle and install products included under National Account Agreements, and make final plumbing, mechanical, and electrical connections. Contractor shall also be responsible for the following for products furnished under National Accounts.
  - 1. Arrange for submittals, including shop drawings, as specified in the individual specification sections.
  - 2. Inspect delivered items for damage and protect items from damage and the elements prior to installation.
  - 3. Coordinate schedule of deliveries.
  - 4. Provide testing and inspections after installation.
  - 5. Costs for removal and replacement if items are damaged as a result of the Contractor's operations, at the Contractor's expense.
