To Whom It May Concern:

This letter is to inform you that on February 4, 2016 we completed the installation, programming and testing of the new fire alarm devices added in the newly expanded space of Maine Nephrology Associates located at 1600 Congress Street in Portland, Maine. These new devices were tied into the existing building fire alarm control panel and all these devices were programmed and test to NFPA 72 standards with test signals sent from these devices to our Central Monitoring Station. These devices were all found to be fully functional at that time.

Should you have any questions or comments regarding this matter, please feel free to contact me at (207) 846-3350.

Sincerely,

Ronald S. Sneider, Manager
