COMMENTS

05/23/01 - DIO setback & footing inspection - questioned rear setback (25' req) because only 3 1/2' at corner - spoke to Nance Brumble & she explained that existing line of old structure was grandfathered for setbacks

07/07/00 - Fernus inspection - everything looks good and I had plans of permits discussed stairs & railings w contractor for emergency addition to garage - no electrical tags or inspection performed - Dave said he would do it today so contractor can close in. No tag left due to no electrical inspection (they says ok to close in) TM

Blank lined area for additional handwritten notes.
