Ann,

No worries on the big sign I'll just stick with what we were proposed with with 440 associates as far as the directional sign it would be super helpful if I could get that 18" x 18" if possible. It is just really tough to see or know where my main entrances is from the far end of the parking lot especially during the afternoon hours when there's delivery trucks etc. are parked in the front. Thank you for your prompt return of my message, very much appreciated.

Best Regards,  
Shaun
