Project Name: **Commercial Development including gas station and convenience store with ATM**
Project ID: 2014-138 CBL: 237-A-012
Address: 2282 Congress Street, Portland
Joint Applicants: C J Developers, Inc. and Portland Property Holdings, LLC
Planner: Jean Fraser

Dear David:

On November 12th, 2014, the Portland Planning Authority approved the amended Level III Site Plan for the Convenience Store and Fuel Station development at 2282 Congress Street (previous approval referenced as project #2013- 086). The amendments include minor modifications to the layout, stormwater system and landscape.

The amended plan as shown on the approved plans (listed below), is approved with the following conditions, which supersede the conditions on the original approval (May 14th, 2013). The waivers included in the original approval remain valid for the amended site plan unless stated otherwise.

TRAFFIC MOVEMENT PERMIT

(Brought forward from the original approval letter) Based upon the City of Portland's Delegated Review Authority, the Planning Board voted 4-0 (Morrissette, O'Brien and Hall absent) that the proposed plan is in conformance with 23 MRSA 704-A and Chapter 305 Rules and Regulations pertaining to Traffic Movement Permits, with the following conditions of approval:

- i. That the applicant shall contribute \$5000 to an account maintained by the City that will be used to fund traffic improvements to the intersection at Congress Street/Hutchins Drive/Skyway Drive; and
- ii. That a post-occupancy signal warrant study shall be conducted one year after opening. If a traffic signal is warranted or the queuing lanes prove inadequate, the applicant shall be responsible for all costs associated with design and implementation of the traffic signal or improvements to such queuing lanes; and
- iii. That the operation of the right turn into the site from Congress Street shall be monitored for one year following opening. If the crash data suggests a problem exists, the applicant shall be responsible for installing a right-turn lane.

STORMWATER MANAGEMENT PERMIT

- i. That the applicant and all assigns, must comply with the conditions of Chapter 32 Storm Water including Article III. Post-Construction Storm Water Management, which specifies the annual inspections and reporting requirements. The developer/contractor/subcontractor must comply with conditions of the construction storm water management plan and sediment & erosion control plan as included in the *Amended Stormwater Management Report* (prepared by FST and dated April 2013, updated July 2014), and as based on the Long Creek Watershed District standards/requirements and state permits and guidelines.

A maintenance agreement for the stormwater drainage system substantially the same form as Attachment 1, with any changes to be approved by Corporation Counsel, shall be signed and recorded, with a copy to the Planning Authority and Department of Public Services prior to the issuance of a building permit.

SITE PLAN REVIEW

- i. That this site plan approval is subject to the Conditional Zone Agreement as approved by the City Council on March 4, 2013, and that C J Developers Inc. shall sign and record the aforementioned Conditional Zoning Agreement prior to the start of any work on site (including approved advance site work), and if the CZA is assigned, C J Developers Inc. shall provide notification of the assignment to the City; and
- ii. That the signed and recorded access easement from Maine Turnpike Authority for the area of the proposed access from Congress Street shall be submitted to the Planning Authority prior to the start of any work on site (including approved advance site work); and
- iii. That a copy of the MDEP Stormwater Discharge approval and evidence of filing a notice of intent to comply with the Maine Construction General Permit shall be submitted to the Planning Authority prior to the issuance of a building permit. If there are significant modifications to the stormwater system as a result of the MDEP review, then an amended site plan would be required for approval by the Planning Authority prior to the issuance of a building permit; and
- iv. That a revised Photometric Plan shall be submitted for review and approval prior to the issuance of a building permit; and
- v. That the design and location of the CNG Facility as shown on the approved plans is indicative only as it is understood that CNG is an emerging alternative fuel and advancements are being made in various delivery methods. When a CNG Facility is finally designed for this site, it shall be subject to review and approval by the Planning Authority, and to a building permit from the Inspections Division, prior to implementation, and shall include modifications to the slopes such as a retaining wall, rip rap slope or expanded disturbance limits depending on the size and location of the building; and
- vi. That all necessary permits and licenses shall be obtained from the Federal, State (including MDEP) or local authorities in respect to the fuel storage, compressed natural gas installation and electric charging stations; and
- vii. That commercial signage shall be subject to separate sign reviews and permits, and that the project shall meet the I-M noise requirements.

The approval is based on the submitted site plan (see list below). If you need to make any modifications to the approved site plan, you must submit an amended site plan for staff review and approval.

STANDARD CONDITIONS OF APPROVAL

The following standard conditions of approval and requirements apply to all approved site plans:

1. **Develop Site According to Plan** The site shall be developed and maintained as depicted on the site plan and in the written submission of the applicant. Modification of any approved site plan or alteration of a parcel which was the subject of site plan approval after May 20, 1974, shall require the prior approval of a revised site plan by the Planning Board or Planning Authority pursuant to the terms of Chapter 14, Land Use, of the Portland City Code.
2. **Separate Building Permits Are Required** This approval does not constitute approval of building plans, which must be reviewed and approved by the City of Portland's Inspection Division.
3. **Site Plan Expiration** The site plan approval will be deemed to have expired unless work has commenced prior to May 14, 2015, which is confirmed in the extension (to original approval) letter of April 10, 2014. This may be extended to a time period up to three (3) years from the original approval date (ie up to May 14, 2016) subject to agreement in writing by the City and the applicant. Requests to extend approvals must be received before the expiration date of May 14, 2015.
4. **Performance Guarantee and Inspection Fees** A performance guarantee covering the site improvements, inspection fee payment of 2.0% of the guarantee amount and seven (7) final sets of plans must be submitted to and approved by the Planning Division and Public Services Department prior to the release of a building permit, street opening permit or certificate of occupancy for site plans. If you need to make any modifications to the approved plans, you must submit a revised site plan application for staff review and approval.
5. **Defect Guarantee** A defect guarantee, consisting of 10% of the performance guarantee, must be posted before the performance guarantee will be released.
6. **Preconstruction Meeting** Prior to the release of a building permit or site construction, a pre-construction meeting shall be held at the project site. This meeting will be held with the contractor, Development Review Coordinator, Public Service's representative and owner to review the construction schedule and critical aspects of the site work. At that time, the Development Review Coordinator will confirm that the contractor is working from the approved site plan. The site/building contractor shall provide three (3) copies of a detailed construction schedule to the attending City representatives. It shall be the contractor's responsibility to arrange a mutually agreeable time for the pre-construction meeting.
7. **Department of Public Services Permits** If work will occur within the public right-of-way such as utilities, curb, sidewalk and driveway construction, a street opening permit(s) is required for your site. Please contact Carol Merritt at 874-8300, ext. 8828. (Only excavators licensed by the City of Portland are eligible.)
8. **As-Built Final Plans** Final sets of as-built plans shall be submitted digitally to the Planning Division, on a CD or DVD, in AutoCAD format (*.dwg), release AutoCAD 2005 or greater.

The Development Review Coordinator must be notified five (5) working days prior to the date required for final site inspection. The Development Review Coordinator can be reached at the Planning Division at 874-8632. All site plan requirements must be completed and approved by the Development Review

Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.

If there are any questions, please contact Jean Fraser at (207) 874-8728.

Sincerely,

Alexander Jaegerman, FAICP
Planning Division Director
