Jeff

Can you please take a look at these- they have added planting on the east side and reduced the impervious surface. Need a "sign off" please.

The condition of approval was:

i. That the applicant shall submit a revised Landscaping Plan (with notes), for review and approval by the Planning Authority and City Arborist prior to the issuance of a building permit, that meets the recommendations set out in Jeff Tarling's e-mail dated 5.10.2013; and

Your 5.10.13 comment was: b) Trees in parking lot - In the area shown as snow storage, and addition one to two trees could be set back away from the edge of pavement to still allow snow clearing and meet the parking lot tree / shrub standards.

Thanks

Jean

(I can send the earlier approved plans if you want them)
