BUILDING PERMIT INSPECTION PROCEDURES Please call 874-8703 (ONLY)

or email: buildinginspections@portlandmaine.gov

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the city of Portland Inspections Services for the following inspections. Appointments must be requested 48 to 72 hours in advance of the required inspection. The inspection date will need to be confirmed by this office.

- Please read the conditions of approval that is attached to this permit!! Contact this office if you have any questions.
- Permits expire in 6 months. If the project is not started or ceases for 6 months.
- If the inspection requirements are not followed as stated below additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.
- Per Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC). One set of printed approved stamped construction documents shall be kept at the site of work and shall be open to inspection by building officials.

REQUIRED INSPECTIONS:

Above Ceiling Inspection
Electrical - Commercial
Close-in Plumbing/Framing
Fire Inspection
Final Inspection

The project cannot move to the next phase prior to the required inspection and approval to continue, REGARDLESS OF THE NOTICE OF CIRCUMSTANCES.

IF THE PERMIT REQUIRES A CERTIFICATE OF OCCUPANCY, IT MUST BE PAID FOR AND ISSUED TO THE OWNER OR DESIGNEE BEFORE THE SPACE MAY BE OCCUPIED.

Ok to Issue: Note:

Conditions:

07/05/2013 Dept: Building **Status:** Approved w/Conditions Reviewer: Jon Rioux **Approval Date:**

Ok to Issue: Note:

Conditions:

1) No permit shall be issued until the applicant has removed and disposed of all "friable asbestos" such material in accordance with applicable state and federal regulations.

Utility connections. Service utility connections shall be discontinued and capped in accordance with the approved State and City or Portland rules and requirement.

- 3306.1 Protection required. Pedestrians shall be protected during construction, remodeling and demolition activities as required by this chapter and Table 3306.1. Signs shall be provided to direct pedestrian traffic.
- 2) 713.3 Fire-resistance-rated walls. Penetrations into or through fire walls, fire barriers, smoke barrier walls and fire partitions shall comply with Sections 713.3.1 through 713.3.3. Penetrations in smoke barrier walls shall also comply with Section 713.5.
- 3) Permit approved based upon information provided by the design professional. Any deviation from the final approved plans requires separate review and approval prior to work.

Reviewer: Chris Pirone 07/03/2013 **Dept:** Fire **Status:** Approved w/Conditions **Approval Date:** Ok to Issue:

Note: 39.2.4.3 does exit directly discharge to outside?

Conditions:

- 1) Any cutting and welding done will require a Hot Work Permit from Fire Department.
- 2) Application requires State Fire Marshal approval.
- 3) Street addresses shall be marked on the structure and shall be as approved by the City E-911 Addressing Officer. Contact Michelle Sweeney at 874-8682 for further information.
- 4) A separate Fire Alarm Permit is required for new systems; or for work effecting more than 5 fire alarm devices; or replacement of a fire alarm panel with a different model. This review does not include approval of fire alarm system design or installation.
- 5) A separate Suppression System Permit is required for all new suppression systems, including standpipe systems, and sprinkler work effecting more than 20 heads. This review does not include approval of system design or installation.
- 6) Fire department connection type and location shall be approved in writing by Fire Prevention Bureau.
- 7) A firefighter Building Marking Sign is required.
- 8) Fire extinguishers are required per NFPA 1.
- 9) Construction or installation shall comply with City Code Chapter 10.
- 10 Emergency lights and exit signs are required. Emergency lights and exit signs are required to be labeled in relation to the panel and circuit and on the same circuit as the lighting for the area they serve.
- 11 Fire walls, fire barriers, fire partitions, smoke barriers and smoke partitions or any other wall required to have protected openings or penetrations shall be effectively and permanently identified with signs or stenciling in accessible concealed floor, floor-ceiling or attic spaces at intervals not exceeding 30 feet with lettering not less than 0.5 inches in height.

PERMIT ID: 2013-00990 Located at: 64 BLUEBERRY RD CBL: 238 A008001

- 12 Notice: The first scheduled final inspection fee is at no charge. Additional inspections shall be billed at \$75 for each inspector.
- 13 Through-penetrations and membrane penetrations in fire walls, fire barrier walls, and fire resistance rated horizontal assemblies shall be protected by firestop systems or devices in conformance with NFPA 101:8.3.5 (ASTM E 814 or ANSI/UL 1479). Providing firestop labels at each firestop system or device and an onsite manual containing the detail for each firestop system or device used for the project will streamline final inspection approvals.
- 14 **The fire alarm system design shall be evaluated for the renovated areas by an NICET IV certified interior fire alarm designer or a licensed engineer for compliance with the code. A compliance letter is required prior to the final inspection.**

 A current inspection sticker from an approved fire alarm inspection company is required prior to the final inspection.
- 15 The approved plans with the Building Department Approved stamp shall be maintained on site for inspection.
- 16 All means of egress to remain accessible at all times.
