BUILDING PERMIT INSPECTION PROCEDURES
Please call 874-8703
or email: buildinginspections@portlandmaine.gov

**Check the Status of Permit or Schedule an Inspection at
<http://www.portlandmaine.gov/planning/permitstatus.asp>**

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the City of Portland Inspections Division for the inspections listed below. Appointments must be requested 48 to 72 hours in advance. The inspection date will need to be confirmed by this office.

- **Please read the conditions of approval that are attached to this permit.**
- **Permits expire in 6 months if the project is not started or ceases for 6 months.**
- **If the inspection requirements below are not followed, then additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.**
- **Per Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC), one set of printed approved stamped construction documents will be kept at the site of work and open to inspection by building officials.**

REQUIRED INSPECTIONS:

Final Inspection

Final - Fire

Close-in Plumbing/Framing

Electrical - Commercial

The project cannot move to the next phase prior to the required inspection and approval to continue.

If the permit requires a certificate of occupancy, it must be paid and issued to the owner or designee before the space may be occupied.

City of Portland, Maine - Building or Use Permit		Permit No: 2017-00862	Date Applied For: 06/02/2017	CBL: 238 A008001
389 Congress Street, 04101 Tel: (207) 874-8703, Fax: (207) 874-8716				
Proposed Use: Same: Eco Maine Scall House		Proposed Project Description: Installation of 1 ERV, 2 Heat Pumps with 1 Condenser, 1 Electric Ceiling Heater		
Dept: Fast Track	Status: Approved w/Conditions	Reviewer: Keri Ouellette	Approval Date: 06/12/2017	
Note:		Ok to Issue: <input checked="" type="checkbox"/>		
Conditions:				
<p>1) M1804.2.6 Mechanical draft systems. Mechanical draft systems shall be installed in accordance with their listing, the manufacturer's installation instructions and, except for direct vent appliances, the following requirements: The vent terminal shall be located not less than 3 feet above a forced air inlet located within 10 feet. The vent terminal shall be located not less than 4 feet below, 4 feet horizontally from, or 1 foot above any door, window or gravity air inlet into a dwelling. The vent termination point shall not be located closer than 3 feet to an interior corner formed by two walls perpendicular to each other. The bottom of the vent terminal shall be located at least 12 inches above finished ground level. The vent termination shall not be mounted directly above or within 3 feet horizontally of an oil tank vent or gas meter. Power exhauster terminations shall be located not less than 10 feet from lot lines and adjacent buildings. The discharge shall be directed away from the building. M1804.3 Installation. Type L and pellet vents shall be installed in accordance with the terms of their listing and label and the manufacturer's installation instructions. M1804.3.1 Size of single-appliance venting systems. An individual vent for a single appliance shall have a cross-sectional area equal to or greater than the area of the connector to the appliance, but not less than 7 square inches (4515 mm²) except where the vent is an integral part of a listed and labeled appliance. Note: Maintain access, and the Unit's Listed clearances in the attic space so as not to cause a fire hazard to walls, floors, combustible furnishings or doors.</p> <p>2) The review of this permit did not include a review or confirmation of the zoning legal use. It is only approving the specific work described in the plans and forms submitted. The current use of the property may be found to be unlawful.</p> <p>3) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems, fire suppression and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.</p> <p>4) This is being issued with the understanding that as a fast track, the owner is responsible for scheduling inspections for the work being done and the inspector may require modifications to the work that has been completed if it does not meet code.</p> <p>5) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.</p>
