# FDB

## Fire Document Box

The FDB is the perfect fit to meet the demanding code requirements today. NFPA 72 10.18.2.1.2.8 states that a cabinet must be "prominently labeled 'FIRE ALARM DOCUMENTS'."

An internal galvanized sleeve holds the documents safely and securely. The sleeve is easily removable to allow storage of a 1.5" 3 ring binder or other media. The galvanized sleeve also contains 2 hooks for key rings or thumb drives, a place for several business cards, a cutout for a 1.4 Oz. can of test gas and a slot where a standard CD "jewel" case can be stored. Access to the documents is via a high security lock with a 3/4" barrel.

## FIRE ALARM DOCUMENTS

Records / Programs / Software

### Standard Features:
