Re: Redi-Rock retaining wall installation
Moorehead residence
Westbrook Street, Portland

Dear Doug:

This letter is to confirm that I believe the retaining wall at the Moorehead residence in Portland, Maine was installed correctly. I had no less than five site visits during its construction and the detailed plans provided by Eric Merluzzi, P.E. were followed to the letter. Both the placement and backfill materials, as well as the base materials, were all well within recommended specifications. I witnessed no deviation from the provided plans.

Sincerely yours,

Mike Sullivan
Redi-Rock Manager
