Project No. J3091112

Services Requested By: Skip Schofield, Turner Brothers, LLC

Observation Location(s): Column line E between 15 and 18, and line 18 between E and G.

Excavated Material Description: Native soil

Exposed Subgrade Review: The exposed subgrade consisted of clay and was observed to be firm and stable.

Summary: Based on our observations, excavation activities at the above-referenced locations appeared to have been completed in accordance with project plans and specifications. Results were reported to Skip Schofield, Turner Brothers, LLC at the completion of today's activities.

Additional Comments: Clay was over excavated 1-2 feet.

Project No. J3091112

Services Requested By: Skip Schofield, Turner Brothers, LLC
Foundation Type: Continuous footing
Observed Location(s): Along line E between 15 and 17.5
Subgrade Description: 1-2 feet of crushed stone over woven geotextile over clay

Summary: The foundation subgrade appeared firm and stable. Based on our observations, the foundation subgrade preparation at the above-referenced locations appeared to be in general accordance with project specifications. Results were reported to Skip Schofield, Turner Brothers, LLC at the completion of today's activities.

Additional Comments: Subgrade was over excavated 1-2 feet. A woven geotextile fabric was laid down and then 1-2 feet of crushed stone was placed.
