RE: 185 Rand Road, Old Dominion Freight Renovation Project; Shop Use Confirmation

Mr. Brian LaFlamme (or Inspections Division),

As requested during the electrical rough in inspection on Friday April 25th, at the above referenced project, we are providing this letter to confirm that the area designated as “shop” has not and will not be used for washing fleet equipment. We hope this alleviates the concern that the existing electrical panels are located in this room.

Sincerely,

A handwritten signature in black ink, appearing to read 'Philip Danner', with a long horizontal line extending to the right.

Philip Danner
Manager of Construction
Old Dominion Freight Lines
