CC: Philip DiPierro

Hello:

Yes, Lannie is correct. There is a 8' x 14' platform and a suspended bridge being proposed that may require a building permit.

Thanks.

Shukria

>>> Lannie Dobson 9/30/2013 11:22 AM >>>

It looks like they will need building permits for the Platform and the suspension bridge. Still will be just the 30 dollar site fee.

>>> Barbara Barhydt 9/30/2013 11:21 AM >>>

Yes Brad, that is correct. We thought that they may need some building permits for items in the ground, but if not then just a permit for site work only would be what is needed.

Thank you.

Barbara

So, if I understand this correctly....

This permit is one of those "site plan" permits we put in down here, other than the structures (the platform and suspension bridge) that are in the plans, am I correct?

That would mean we would set it up and charge them the \$30 flat fee?

-Brad.
