A.P.- 34 David Road

August 19, 1965

G. W. Morrison
Linington
Maine

cc to: Charles Harnden
34 David Road

Dear Mr. Morrison:

Permit to construct a 7'x9' enclosed breezeway and 1-car frame garage 13'x24' is being issued subject to plans received with application and in compliance with Zoning Ordinance and Building Code restrictions as follows:

1. Appeal was sustained on the basis that the front of garage shall set back not less than 25 feet from the street line.
2. Also, there shall be a double plate on top of the studs on the outside walls.

Very truly yours,

A. Allan Soule
Inspector

AAS:m

August 4, 1965

Mr. Charles Farnden
34 David Road
R. L. Harrison
Birmingham, Alabama

cc to: Corporation Counsel

Gentlemen:

Building permit to construct a single car wood frame garage 13 feet by 24 feet connected by an enclosed breezeway to the dwelling on the lot at the above name location is not issuable under the zoning ordinance because the side of the garage is to be only 5 feet from the side lot line instead of a minimum of 10 feet as required by Section 4-B-2 of the ordinance applying to the 1-3 residence zone where the property is located.

We understand that the owner would like to exercise his appeal rights in this matter. Accordingly he or an authorized representative should come to this office in Room 110, City Hall, to file the appeal on forms that are available here.

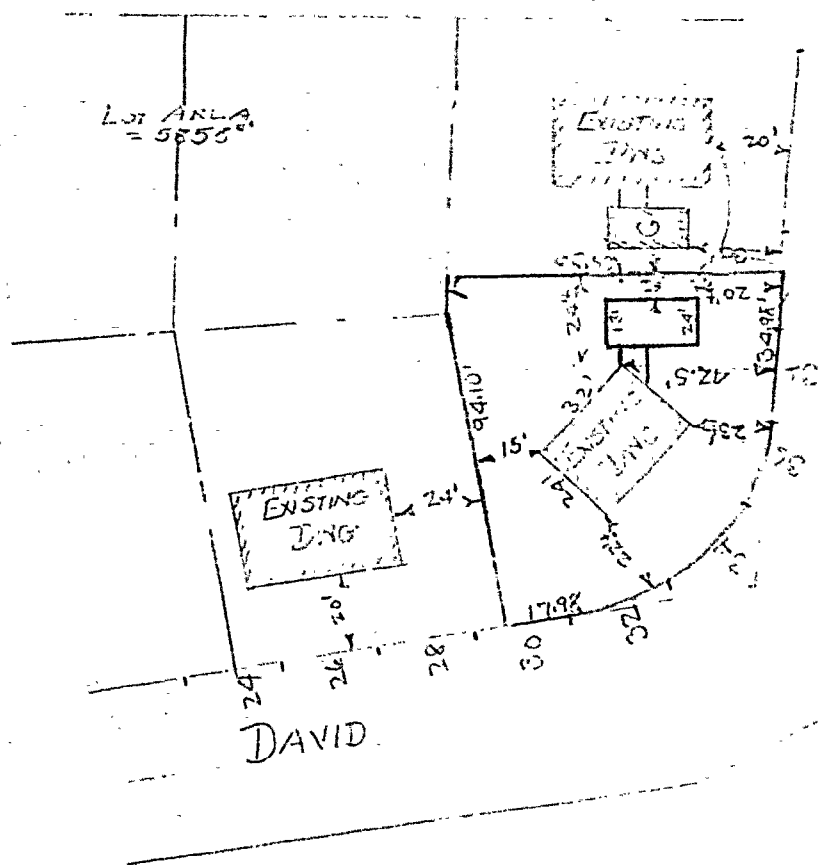

While the plot plan filed with permit application indicates that front of garage is to be 30 feet back from street line, this figure appears to be in error and may have been measured from the edge of the paved right-of-way instead of the inside edge of the sidewalk area, which is actually the street line. The front of the garage will need to be located no closer than 20 feet to the street line in order to comply with zoning ordinance restrictions and there appears to be no reason why this cannot be done.

Very truly yours,

Albert J. Sears
Building Inspection Director

CITY OF PORTLAND, MAINE
IN THE BOARD OF APPEALS

VARIANCE APPEAL

Charles Harnden

owner of property at 30-38 David Road
under the provisions of Section 24 of the Zoning Ordinance of the City of Portland, hereby respectfully petitions the Board of Appeals for a variance from the provisions of said Ordinance to permit construction of a single car wood frame garage 13 feet by 24 feet connected by an enclosed breezeway to the dwelling. This permit is presently not issuable because the side of the garage is to be only 6 feet from the side lot line instead of a minimum of 8 feet required by Section 24-2 of the Ordinance applying to the R-3 Residence Zone where the property is located.

LEGAL BASIS OF APPEAL: Such variance may be granted only if the Board of Appeals finds that the strict application of the provisions of the Ordinance would result in undue hardship in the development of property which is inconsistent with the intent and purpose of the Ordinance; that there are exceptional or unique circumstances relating to the property that do not generally apply to other property in the same zone or neighborhood, which have not arisen as a result of action of the applicant subsequent to the adoption of this Ordinance whether in violation of the provisions of the Ordinance or not; that property in the same zone or neighborhood will not be adversely affected by the granting of the variance; and that the granting of the variance will not be contrary to the intent and purpose of the Ordinance.

Charles H. Harnden

APPELLANT

DECISION

After public hearing held August 12, 1965, the Board of Appeals finds that all of the above conditions exist with respect to this property and that a variance should be granted in this case. Granted provided the garage is located at least 8 feet from street line.

It is, therefore, determined that a variance from the provisions of the Zoning Ordinance should be granted in this case.

Franklin J. Hill
Therese M. Gorman
William J. Gorman
BOARD OF APPEALS

CITY OF PORTLAND, MAINE
IN THE BOARD OF APPEALS

August 9, 1965

TO WHOM IT MAY CONCERN:

The Board of Appeals will hold a public hearing in the Council Chamber at City Hall, Portland, Maine on Thursday, August 12, 1965 at 4:00 p.m. to hear the appeal of Charles Harnden requesting an exception to the Zoning Ordinance to construct a single car wood frame garage 13 feet by 24 feet connected by an enclosed breezeway to the dwelling at 30-38 David Road.

This permit is presently not issuable under the Zoning Ordinance because the side of the garage is to be only six feet from the side lot line instead of a minimum of eight feet required by Section 4-B-2 of the Ordinance applying to the R-3 Residence Zone where the property is located.

All persons interested either for or against this appeal will be heard at the above time and place.

Dear Mr. Harnden:

Enclosed please find copy of the decision of the Board of Appeals relating to your request to construct a single car wood frame garage 13 feet by 24 feet connected by an enclosed breezeway to the dwelling at 30-38 David Road.

It will be noted that this appeal was granted conditionally. The garage is to be located at least 25 feet from the street line.

Very truly yours,

Robert W. Donovan
Assistant Corporation Counsel
