To Whom It May Concern:

This letter is to inform you that on July 28, 2017, we completed the installation, programming and testing of the new fire alarm strobe units installed in the newly renovated bathrooms in the lower level of Breakwater School at 856 Brighton Avenue in Portland, ME. These new strobe units were tied into the building's existing fire alarm control panel and installed, programmed and test to NFPA 72 standards with test signals sent from the alarm system via the City of Portland Master Box and received at the City of Portland Central Monitoring Station. These devices were found to be fully functional at that time.

Should you have any questions or comments regarding this matter, please feel free to contact me at (207) 846-3350.

Sincerely,

Ronald S. Sneider, Manager

Re: Breakwater School
Restroom & Classroom Renov.
856 Brighton Avenue
Portland, ME

Dear Captain Petruccelli,

This letter is to certify that the sprinkler system in the renovated areas of the aforementioned location is active and is designed and installed in accordance with NFPA #13 and all other state and local codes.

If there are any questions or concerns please do not hesitate to call.

Very truly yours,
Sprinkler Systems, Inc.
