RE: Forest City Chevrolet, Car Sales Expansion  
ID #2004-0184, CBL: 263-B-024

Dear Mr. Reardon:

On November 5, 2004, the Portland Planning Authority approved a car sales expansion area and stormwater permit as shown on the approved plan with the following conditions:

- i. Prior to issuance of a certificate of occupancy, the applicant shall provide a maintenance plan for the detention facility and treatment systems.
- ii. No additional lighting is proposed for the parking lot expansion. If, in the future, lighting is proposed, a lighting plan shall be submitted to staff for review and approval.

The approval is based on the submitted site plan. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.

Please note the following provisions and requirements for all site plan approvals:

1. The City prefers AutoCAD2005 DWG files. If that is not available then the City will accept AutoCAD Release 14 through AutoCAD2005 formatted drawing files. In cases where AutoCAD DWG files are not available DXF files can be accepted on a case by case basis. Image files and Adobe PDF files in place of CADD files are not acceptable.
2. A performance guarantee covering the site improvements as well as an inspection fee payment of 2.0% of the guarantee amount and 7 final sets of plans must be submitted to and approved by the Planning Division and Public Works prior to the release of the building permit. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.

O:\PLANDEVREVW\WEBB\apprvltr11-05-04.doc

3. The site plan approval will be deemed to have expired unless work in the development has commenced within one (1) year of the approval or within a time period agreed upon in writing by the City and the applicant. Requests to extend approvals must be received before the expiration date.
4. A defect guarantee, consisting of 10% of the performance guarantee, must be posted before the performance guarantee will be released.
5. Prior to construction, a pre-construction meeting shall be held at the project site with the contractor, development review coordinator, Public Work's representative and owner to review the construction schedule and critical aspects of the site work. At that time, the site/building contractor shall provide three (3) copies of a detailed construction schedule to the attending City representatives. It shall be the contractor's responsibility to arrange a mutually agreeable time for the pre-construction meeting.
6. If work will occur within the public right-of-way such as utilities, curb, sidewalk and driveway construction, a street opening permit(s) is required for your site. Please contact Carol Merritt at 874-8300, ext. 8828. (Only excavators licensed by the City of Portland are eligible.)
7. The Development Review Coordinator must be notified five (5) working days prior to date required for final site inspection. The Development Review Coordinator can be reached at the Planning Division at 874-8632. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.

If there are any questions, please contact Kandice Talbot at 874-8901.

Sincerely,

Alexander Jaegerman  
Planning Division Director
