

SECTION 00320 – GEOTECHNICAL DATA**PART 1. GENERAL****1.1 SUB-SURFACE CONDITIONS**

- 1.1.1 Owner has explored sub-surface conditions by having authorized the making of test borings on site as documented in the letter dated 14 February, 2005, prepared by R.W. Gillespie & Associates with the subject heading “ Retail Buildings 2 and 3, Pine Tree Shopping Center Portland, Maine, RWG&A project No. 908-15”. The Letter follows this section as “Attachment A”.
- 1.1.2 Complete boring data prepared by R.W. Gillespie Associates shall be made part of the specifications, but shall be considered for information only.
- 1.1.3 Owner, Engineer, and Soils Engineer, make no representations regarding character or extent of soil or other sub-surface conditions and/or utilities which may be encountered during Work. Subsoil formations, including water levels included in report have been interpolated from completed borings, correctness of which is not guaranteed.
- 1.1.4 Bidder shall make his own deductions of sub-surface conditions which may affect methods or cost of construction. Bidder may request written permission to make investigations of the existing soil for whatever purposes he may desire.

1.2 BORING LOCATIONS

- 1.2.1 Location of borings shown on drawings (included in the geotechnical report) are approximate only.
- 1.2.2 Bidder shall visit the site and make such investigations as may be deemed necessary for proper execution of the Contract.

PART 2. PRODUCTS
