Hi Scott, you are better off dealing with the inspector on this as he is familiar. It sounds like Don has been dealing with this so you should contact him as it would take me much longer to get up to speed on this project.

I was talking to Don who asked me to call the counter. I sent one of my employees to the counter and he talked to Brad. My employee got the impression from a lady there that we would be all set that they would add it to the permit but Brad made him think we should contact the fire department and Don. ( my employee did not get a name)I called Don and sent him a bunch of documents from the rack manufacture and my had drawn layout. I called Don and he said he would talk to a inspector on Monday. Something else happened in the middle and I called him Back and we lost our connection. Fifteen minutes after that I got a call from Gale I believe . She explained that I should email you and the fire department that in fact we should be able to add to the old permit. She said that you are an inspector or reviewer. I am sorry if I have that wrong or any of the names, it has been an interesting journey.

I have set my racks low at the 5'9" until I have confirmation that's its ok to go higher.

Charles -

Just following up on Roy's email. Currently our assessor's records show the owner of the property as Centro Heritage SPE 4, LLC, 131 Dartmouth St., Boston MA 02116. Roy has the owner as Brixmor SPE 4, LLC with a New York address. Is Brixmor the new owner of the property?

Second, our office needs a letter from the owner stating that Sullivan Tire is leasing the space at 1100 Brighton Av., Portland, ME. It can be sent as a pdf to my email.

Thank you.

Ann from the Portland Zoning called us today and does not have record of Brixmor SPE 4 LLC and need confirmation that it is the owner of record as well as a statement that Sullivan Tire will be the tenant at that site prior to issuing our permit. Is this something you can handle? Thanks.
