Mr. Patel -

I have finished my initial zoning review and at this point I need more information before I can approve the permit for zoning.

1. Is Building 200 a one or two story building? If it is a two story building is the change of use on the first floor?
2. I need more clarification on the two apartments. You label one as GM apartment. Is this apartment for the general manager? How is the second apartment going to be used?
3. I understand that you are doing work on building 200. You also submitted roof framing plans for building 100, 300 and 400. Is this work also part of the permit? What exactly is being done to these roofs? This should be part of the project description.

Thank you.
