re: 155 Riverside Street, Exit 8 Friendly's *OWNER HJ ASSOCIATES*

Dear Mr. Filtch,

267-B-001

On June 15, 1999 the Portland Planning Staff approved the site plan for the proposed site improvements at 155 Riverside Street, Application I.D. #19990041. The approval was granted for the project with the following condition(s):

- i. That the applicant provide \$8000 for off site traffic improvements.
- ii. That the applicant enter into a stormwater treatment maintenance agreement with the City for the required sub-surface stormwater treatment tank.

The approval is based on the submitted site plan and the findings related to site plan review standards as related to application I.D. #19990041.

Please note the following provisions and requirements for all site plan approvals:

- 1. A performance guarantee covering the site improvements as well as an inspection fee payment of 1.7% of the guarantee amount and 7 final sets of plans must be submitted to and approved by the Planning Division and Public Works prior to the release of the building permit. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.
- 2. The site plan approval will be deemed to have expired unless work in the development has commenced within one (1) year of the approval or within a time period agreed upon in writing by the City and the applicant. Requests to extend approvals must be received before the expiration date.
- 3. A defect guarantee, consisting of 10% of the performance guarantee, must be posted before the performance guarantee will be released.

4. Prior to construction, a preconstruction meeting shall be held at the project site with the contractor, development review coordinator, Public Work's representative and owner to review the construction schedule and critical aspects of the site work. At that time, the site/building contractor shall provide three (3) copies of a detailed construction schedule to the attending City representatives. It shall be the contractor's responsibility to arrange a mutually agreeable time for the preconstruction meeting.
5. If work will occur within the public right-of-way such as utilities, curb, sidewalk and driveway construction, a street opening permit(s) is required for your site. Please contact Carol Merritt at 874-8300, ext. 8828. (Only excavators licensed by the City of Portland are eligible.)

The Development Review Coordinator (874-8721) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.

If there are any questions, please contact the Planning Staff.

Sincerely,

Joseph E. Gray, Jr., Director of Planning and Urban Development
