Jeanie:

We have had (3) significant changes to the Berlin City Showroom Project. The attached change is the moving of the "Portal" which we got verbal approval from both you and planning in early January. The other (2) Bulletins (#3 and #4) change the layout of the interior of the showroom, add millwork, and adjust the finishes. Because these are larger attachments, I will follow up with 2 more emails containing Bulletin #3 and Bulletin #4. I have paper copies of all this information that I will bring to your office later today. I am hoping that I can have a quick conversation with you as to how the "change" process works so I can help expedite the process. I was planning on stopping by your office sometime early this afternoon around 1:30, does that work for you? Please feel free to give me a call.

JP,

Please refer to the attached bulletin indicating the revision to the portal as required due to field conditions.

Sincerely,

Jason A. Fochtman
