Jeanie,

Here is what we received from the DHS.

Jamie

I do not believe so, at least for the child care space. Since the child care program does not need to be licensed, you would not need an additional inspection from the Fire Marshal for that particular space. I cannot say for the rest the of the facility as I am not aware of the regulatory requirements for gyms.

Megan,

Thanks so much for the information. One question, does the state fire marshall need to inspect our space?

Thanks,
Alexa
