Laurie,

I'm sorry I left off the response to that comment. I checked the plan and the equipment is 9'-10 1/2" from the roof edge. We are going to shift it back so it is clear of the 10'-0" required dimension.

Tyler

Tyler,

I do not see the revision for the roof plan AE120 regarding guards.

I am going through all of the revisions this morning.

Thanks,

Laurie

Good afternoon Laurie,

Attached please find the remaining updates to the plans and specifications for the Hall Elementary School project. To my knowledge, this addresses all of your remaining comments. I have renamed reissued sheets to match the file name of those previously submitted. Please let me know if there is additional information that you need.

I appreciate the help with the review.
