REMARKS:

CITY OF PORTLAND, MAINE
MEMORANDUM

DATE: 1/25/84

TO: Barbara Barhydt, Planner I
FROM: Warren J. Turner, Zoning Specialist *WJ Turner*
SUBJECT: Proposed addition at 420 Warren Avenue

1. There should be about 32 feet or more between the existing building and the proposed new addition based on 16 ft. side yard as determined by one foot for each foot of height in the new structure.
2. There would be 60 car spaces required for this size building, as follows:

7	existing building
13	proposed addition
40	existing building
<u>60</u>	car spaces required

The applicant is providing 79 car spaces in his site plan for the proposed building for applicator sales at 420 Warren Avenue.

RE: Proposed Addition at 420 Warren Ave.

Gentlemen:

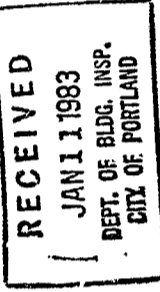

In accordance with Portland Code Manual Article 14-526 Item (2), we submit the following statement to accompany the site plan for K & R Realty Drawing #RR84-SPI Dated 1/5/84.

- a.) Use is to expand existing manufacturing and warehouse area for window manufacturing.
- b.) Total land area - 172,359.82 SF
Total floor area of expansion - 12,960 SF
- c.) At the West side of property there exists a 25' light of way for Portland Water District.
- d.) Solid waste disposal is to existing combination storm & sewer in Warren Ave.
- e.) The availability of site public facilities is adequate.
- f.) Due to finish grades required at truck unloading areas, drainage utilizing existing rear drainage swalls is impossible therefore, this area is drained into the existing combination storm and sewer on Warren Ave. as shown on site plan.
- g.) Estimated time for completion is May 1984.

Sincerely,

Rudolph Butterfield

RE: NB6084-01/K & R Realty
Portland, ME

Gentlemen:

The pre-engineered structural steel components for the above-referenced project have been designed in general accordance with the latest procedures and design criteria of the following specifications:

1. BOCA Basic Building Code/1981
2. The American Institute of Steel Construction
3. The American Iron and Steel Institute

The structural analysis was based upon the following load criteria:

- | | |
|--------------------|----------------------|
| 1. Roof Live Load | 50 psf |
| 2. Roof Dead Load | 3 psf plus frame wt. |
| 3. Wind Speed | 90 mph |
| 4. Collateral Load | 5 psf |

Our responsibility is limited to the structural performance of the pre-engineered components as designed and supplied by Inryco, Inc. using the specification and load criteria described above. Inryco cannot and will not guarantee the performance of any component subjected to field modifications not endorsed by Inryco Engineering Services, or the performance of any component subjected to loads other than those described in the foregoing.

Sincerely,

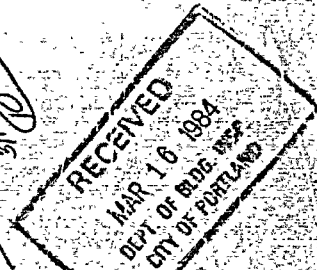

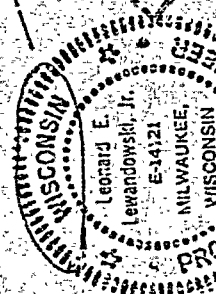

INRYCO, INC.

253 Warren Avenue
Portland, ME 04103

RE: 420 Warren Avenue

Gentlemen:

Your application to construct a 12,960 sq. ft. addition at 420 Warren Avenue has been reviewed, and a building permit is herewith issued subject to the following requirements.

Site Plan Review

Inspection Division:

Site Plan Review completed by Planning Board. Copy of conditions furnished in copy of letter from Planning. W. Turner 3/2/84

Fire Department:

None Lt. J. Collins 1/19/84

Public Works Department:

- 1) Parking lot and driveway be constructed with a minimum of 6" of gravel and 2" of bituminous concrete.
- 2) Flow regulator with maximum peak outflow of 2 cfs to be installed in the proposed catchbasin. Catchbasin shall have a minimum 3' sump. The storm drain connection to the manhole in Warren Avenue shall be made under this Department's supervision. R. Roy 2/28/84

Planning Division:

- 1) Four trees located 30 feet on center should be planted along Warren Avenue. All plantings should meet City specifications, and the trees should be no smaller than 2 1/2" in diameter. Anne Grimes, Supt. of Forestry/Golf Course, shall be consulted so that the trees may be inspected prior to planting. The additional trees required may replace proposed.
