

# Permit

In kitchen: Everything is already in place regarding: Electric, Plumbing + Venting. working garbage disposal etc.

We propose keeping the existing footprint  
Change out Cabinets + countertop  
and extend the countertop by  
three feet to create a peninsula breakfast  
bar.

This will require changing out an  
existing ~~basem~~ window.

In basement: There is a 300 sq ft room  
that needs new sheetrock.

Electric heating + plumbing exist
