Your present structure is legally nonconforming as to setbacks. If you are to demolish this structure on your own volition, you will only have one (1) year to replace it in the same footprint (no expansions), with the same height, and same use. Any changes to any of the above shall require that this structure meet the current zoning standards.

It is understood that there is a rear "dog shed" addition on the rear of this garage. This may be used for the measurement of your garage. Please have the Code Enforcement Officer measure and document the existing garage PRIOR to demolition.

CITY OF PORTLAND

The Demolition Call List must be submitted with a Building Permit Application

Property location: 15 Kent Street
Portland ME

Chart/Block/Lot 284-E-006

The call list below must be submitted with the building permit application. Please note any "commercial use" demolition will need additional approvals.

When making the submission please include a plot plan showing the location of the structure that is being removed along with a photograph. You may not remove or disconnect any type of lines (private or public) until you have received an *approved building permit*. If the building does not have one of the below utilities please put "does not apply". All Departments in bold must be notified under all circumstances.

SUGGESTED GUIDELINES FOR PREMARKING

"Premark" means to identify the general scope of excavation activities using white stakes or other suitable white markings, in a manner that will enable utility operators to identify the boundaries of the proposed excavation activities. *

- Premark the area to be excavated before calling Dig Safe.
- Proposed excavation areas should be identified with white marks, with the company name or logo within the premarked areas.
- Premark the exact area of excavation using solid lines, dashes or dots.
- Failure to premark when practical may jeopardize your Dig Safe permit and a civil penalty.
- Member utility companies will mark owned or maintained facilities in the premarked areas. Excavating outside the premarked area requires another permit from the utility company.
- If working throughout an entire property, rather than just a particular area, circle the outer perimeter of the property to indicate that work will take place everywhere within those premarked areas.

* Exemptions

Massachusetts: Excavations over 500 feet in continuous length, replacement of fence posts in the same location

New Hampshire: Excavations over 100 feet in continuous length; replacement of pipe within 5 feet of its existing location

Vermont: Excavations over 500 feet in continuous length

BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 to schedule your inspections as agreed upon

Permits expire in 6 months, if the project is not started or ceases for 6 months.

The Owner or their designee is required to notify the inspections office for the following inspections and provide adequate notice. Notice must be called in 48-72 hours in advance in order to schedule an inspection:

By initializing at each inspection time, you are agreeing that you understand the inspection procedure and additional fees from a "Stop Work Order" and "Stop Work Order Release" will be incurred if the procedure is not followed as stated below.

DB **Pre-construction Meeting:** Must be scheduled with your inspection team upon receipt of this permit. Jay Reynolds, Development Review Coordinator at 874-8632 must also be contacted at this time, before any site work begins on any project other than single family additions or alterations.

Demo Permit
