1) As discussed during the review process, the property must be clearly identified prior to pouring concrete or placement of the shed and compliance with the required setbacks must be established. Due to the proximity of the setbacks of the proposed shed, it may be required to be located by a surveyor. 2) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work. 3) This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
