Jean -

Jim Seymour is working on getting these drawings finalized today. Jim - can you make sure Jean gets these when they are completed?

Thanks

Hilary

There are many other conditions of approval and I don't believe I have received any revised plans to address the conditions. All revised plans to address conditions would need to be reviewed and signed off on by reviewers (eg City Arborist, Traffic, Legal) before a building permit can be issued. This usually takes several days to a week at least.

I will coordinate getting the reviewers to look at the revisions (when submitted to address the conditions) and get their comments or sign off- so please send to me.

thank you
Jean

Chris -

We are in the final stretch to obtain our building permit and bank closing this coming Monday. In

reviewing all of the requirements from our Planning Board Approval (letter attached) I am sending along our code review for your reference. This project is designed to have a quick response automatic sprinkler system so I believe we should be all set.

These drawings have been submitted to the city for building permit application. I will send them along to you under a second email.

Please let us know if you need anything else.
