---

Good Afternoon,

As requested , here is some additional clarification on the RTU's for this project with regard to which unit is which. If you refer to our mechanical plan M-1 you will see our RTU's are labeled as RTU-1, RTU-2 and RTU-3...

RTU-1 is the 25 ton unit (Model #ZJ300...)

RTU-2 is the 5 ton unit (Model #ZJ061...)

RTU-3 is the 3 ton unit (Model #ZJ037...)

I hope this provides the clarification you needed. Thank you very much in advance for your assistance. If it would be possible to make payment for this permit today that would be wonderful. Thanks again.

Kind Regards,

**Mike Richard, P.E.**
