Re: INSTALLATION OF FOUNDATION DRAINS
Plasmine Technology
Portland, ME

Project Number: #12-063

Dear Mark:

Based on our conversation on August 20, 2012, the client and project manager from Plasmine Technology agreed that the foundation drains were unnecessary as provided in the structural drawings due to the proximity of a newly installed drainage system. This is not a code issue and therefore the owner is willing to accept the associated risk.

Please contact us if you have any questions,

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Dube".
