Re: Building Permit Application for the Central Maine Power Co, Inc. (CMP)
Bishop Street Substation, Portland, Maine

Dear Doug:

Enclosed is the General Building Permit Application and supporting plans for CMP's plans to add various electrical components to its Bishop Street Substation. CMP is committed to improving electrical service to businesses and residents in the Cities of Portland and Westbrook and is proposing improvements to the substation to upgrade the electrical distribution circuits. The substation is served by two 34.5 kV transmission lines, Sections 186 and 188, which support three distribution circuits that provide power to the Morrills Corner area including Warren Ave, Forest Ave, University of New England, numerous residences, and commercial and industrial businesses in Portland and Westbrook.

In order to provide these improvements, CMP proposes to add a half bus (supports a redundant secondary circuit), capacitor bank (provides energy storage), and gas breaker. These improvements are geared towards correcting power supply anomalies that often occur in industrial and commercial areas that have significant fluctuations in electricity use, thus improving efficiency and reliability. Recently CMP obtained approval for site plan upgrades via an Administrative Authorization from the Planning Department. This work included relocating a secondary access driveway.

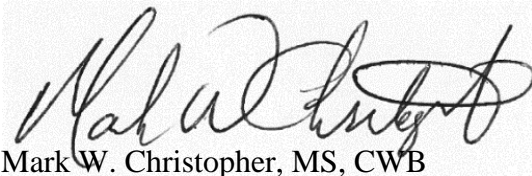

The supporting documents that are attached include:

- General Building Permit Application Form;
- Certificate of Design, Signed and Sealed;
- General arrangement plan of the existing and proposed electrical components;
- Cross sections of component additions;
- General foundation plan; and
- Foundation details for each type of foundation (bus, breaker, capacitor bank, and gate).

All plans were prepared by SGC engineering, LLC, except for the bus foundation which replicates the existing foundations.

The application fee, \$1,210 is being sent via Federal Express. Thank you for your assistance with the review of this application. Please contact me at 620-3844 with any questions or comments and I will provide you with any additional information needed.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark W. Christopher", is written over a light gray rectangular background.

Mark W. Christopher, MS, CWB

Please submit all of the information outlined on the applicable checklist. Failure to do so causes an automatic permit denial.

In order to be sure the City fully understands the full scope of the project, the Department may request additional information prior to the issuance of a permit. For further information or to download copies of this form and other applications visit the Department of Permitting and Inspections on-line at www.portlandmaine.gov, or stop by the office, room 315 City Hall or call 874-8703.

I hereby certify that I am the Owner of record of the named property, or that the owner of record authorizes the proposed work and that I have been authorized by the owner to make this application as his/her authorized agent. I agree to conform to all applicable laws of this jurisdiction. In addition, if a permit for work described in this application is issued, I certify that the Code Official's authorized representative shall have the authority to enter all areas covered by this permit at any reasonable hour to enforce the provisions of the codes applicable to this permit.
