Hi Jeanie,

I just left you a voicemail but thought it might be better to zip you an email. You were kind enough to issue this BP last year for Verizon Wireless to add some antennas to an existing tower on Warren Ave. We will be close to commencing construction by the 3/15 6-month anniversary of the permit, but work might not begin until later this Spring. Should we file a new application or is there a process to extend the permit for another 6 months?

Thanks,

Scott

Hi Scott,

Thank you for contacting me about the status of this permit and the delayed commencement of work. This email serves as confirmation for the allowance of a 6 month extension to the required construction start date of 3/15/17 per the permit issuance date of 9/15/16. The new date for the commencement of work shall be no later than 9/15/17.

I will file this with the permit documents and permit comments.

Best,

Jeanie
