John Brennan,

Affordable Fire Protection has upgraded the fire suppression system in the exhaust hood over the cooking appliances at Morans Market on 1576 Forest Ave. This fire suppression system is UL300 Approved for this application and was installed with a auto fuel shutt downs and fire alarm switch.

Once Affordable Fire Protection installed the system according to Protex manufacturer specifications we preformed a baloon test and gas valve, alarm test. All test preformed well.

Gerry Lebel
