Dear Ms. Fraser:

We include our Letter of Transmittal, Site Plan No, C-3.0 and RTU1 specifications for your review and approval.

Here is the RTU product data. The unit model number is also shown on the Mechanical Schedule - M-3.

Unit dimensions start on page 24. Sound performance is on page 11. I have highlighted / marked up the pertinent data

Thank you for your assistance with helping us resolve the location issue regarding Roof Top Unit. As you well know, my company is most anxious to start this project without further delays a.k.a. -now. Your earliest attention is most appreciated in helping us achieve this goal.

Sincerely,

Dana C. Sturtevant

c.c. Ms. Jeanie Bourke
