April 29, 2014

We will be occupying the space at; Unit 5 in Building #3 of Rainmaker Business Park Condominium Portland Maine. We will not be changing the structure from the original design the second floor mezzanine will be used as classroom space for a max of 12 students and 1 instructor

The first floor will be used for hands on training of drywall application. This will require the construction of 4 medal frame walls 6' long and 8' high no ceiling, no electrical or pluming will be needed. Attached is the Drywall Assessment Project Plan that will be used for the hands on training. The student will build the project according to the plan and once graded it will be taken down.

We are purchasing this property from Ken Brigham of Cleanmoves. If we cannot use the property for our intended purpose, we will not purchase it. The closing date for the sale of the property has been moved to mid- May and we will wait for your response to our permit request before purchasing.

Sincerely,

Lyle Hamm

Sincerely
