310 - D - 14

Dorothy,

I am sorry that you are feeling uncomfortable with applying. I also wanted to make you aware that I personally will no longer be with the City in the Spring. I am retiring within the next couple weeks. However, your situation has been discussed with the current Zoning Specialist. She too believes that the section of the Ordinance that I discussed with you can be used for building your garage.

Thank you,

Marge

Thank you for getting back to me regarding the possibility of building a garage. It looks like the garage project is being put on hold because I am too uncomfortable resubmitting my request for fear that it may, indeed, be denied once again. If I decide in the spring that I want to take the chance again, then I will resubmit. Thank you.
