To: Chad Mullin <chad@habitatme.org>

Here's the electrical action plan for the Habitat for Humanity ReStore and Offices to be completed over the next 6 months:

Before January 1st:

Replace cover for Panel 2
Display accurate labeling of all 5 panels
Remove any remaining wiring attached to sprinkler system piping
Install any remaining knock out seals throughout space

*Finishing
Cable + Wiring*

Before February 1st:

Install lighting control (contactors) for lighting to create 3 lighting areas that can be controlled from a central location

Before March 1st:

Rewire track lighting in furniture/lighting showroom
Add new subpanel to separate overlap with middle unit

Before April 1st:

Install disconnects on each row of lighting to allow for maintenance

Before May 1st:
