CC: Marge Schmuckal; Tammy Munson

George,

I think it will be helpful if you give an overview of the scope as to the accident and the project relating the existing #4 tower & base dimensions with details of the proposed tower, including the discussion we had that it is essentially larger only in diameter by 3 or so inches.

Please submit this additional information to buildinginspections@portlandmaine.gov to include with these application documents.

Thanks and I will let you know about any site plan requirements as soon as I know.

Jeanie

I had met with Jeanie Bourke last week and would like to get a Building permit based on the attached. It will be 2-3 weeks before we can produce stamped tower drawings however they will support the attached. This accident is severely impacting our customers business and our hopes are to restore the site as fast as possible. Please review and respond as soon as possible.

Thank you,

George Crouse
