To Whom It May Concern,

This letter verifies that the work performed under Building Permit # 2013-02072, (Emergency replacement for tower #3 knocked down by construction equipment. New tower height will match the original height of 188' above the base insulator.) issued by the City of Portland at the above address has been completed. Inspections have been recorded and the work appears to be in accordance with the applicable code requirements. This does not certify that the property is free of building code violations.
