Re: Replacement System Variance Request, U.S. Postal Service, 380 Riverside Street, Portland

Dear Jim:

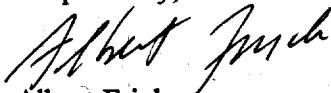

Enclosed are:

- ✧ Subsurface wastewater disposal system for 1900 gpd submitted for the U.S. Postal Service by Oak Point Associates and Albert Frick Associates.
- ✧ Replacement/expansion system variance request
- ✧ Septic system evaluation report, prepared by Oak Point Associates on June 18, 1999
- ✧ Letter to Edward J. O'Connell, U.S. Postal Service from Albert Frick, dated 11/5/93.
- ✧ Copy of original HHE-200 plans for 1275 gpd, dated 9/13/85.

This facility is a district office that has expanded slowly over time. This area is not currently serviced by sewer (see Oak Point Associates report of June 18, 1999).

Please contact Paul Miller at Oak Point Associates or me if you have any further questions or matters for additional discussion.

Respectfully,

Albert Frick
