Subject: RE: Boots Bounty

The owner of the building is a firefighter for Portland. He said it is a cement wall with a steel door, being rated at least 2 hr. And there are not sprinklers, but he said being a one story building with space being warehouse and no customers entering building, typically 2 employees in there at any given time, probably wouldn't require it?

Hope this helps with our process. We so appreciate you working with us on the timely issue.

Thanks again!!

I am available all day via email and cell, 329-5968 thanks again!

I don't know if there is anyway, for you to take a peek at our status. I know you must "hear it all", but we have been in to the town hall several times and are desperate. I know it passed Ann Machado's desk and the change of use is approved. We just want to replace two windows add an exit door and less than 500 sq of tar. We are told our project is quite small. Any help is greatly appreciated.
