As requested, please find attachments herein in order to provide an electronic copy of the UPS submission for AT&T wireless installation ME5372 at the cell tower located at 636 Riverside Street.

Specifically the attachments herein include the [I] 11-sheet long Construction Drawing (each CD sheet in own PDF), as well as copies of the [II] General BP Application, [III] Checklist, [IV] Structural Analysis and [V] Certificate of Insurance. This is the 1<sup>st</sup> email for this application's files.

Note that this application is intended to renew right previously granted to AT&T (Building Permit 2014-01331, reinstated as 2016-92926). Latest updates to the CDs include:

1. dates updated on each sheet
2. radiofrequency (RF) equipment scheduled for initial on-air deployment revised slightly on
  - C1 - Compound Plan & Elevation (sheet 3 of 11) in CD
  - A1 - Antenna Mounting Plan & Details (sheet 6 of 11) in CD
  - A3 - RF Plumbing Diagram (sheet 8 of 11) in CD

Also, [VI] Manufacturer's specification sheets for the prefabricated shelter will come separately in a 2<sup>nd</sup> email in order to maintain each individual email's size below 5 MB.

Thanks,
