Sandy,

Thank you for taking the time to discuss this UPS submission that you received last week with me. As promised, it has now also been submitted in PDFs to Permitting@PortlandMaine.gov, per the direction re-attached. Two emails were sent with the files that you and your supervisor requested:

- ✓ 636 Riverside St - General Building Permit - CD, App, Checklist, SA and COI /// AT&T ME5372 [1st email's subject on Mon 2/6/2017 3:59 PM]
- ✓ 636 Riverside St - General Building Permit - Prefab shelter specs sheets /// AT&T ME5372 [2nd email's subject on Mon 2/6/2017 4:00 PM]

First email explains the parts of the Construction Drawing (CD) that I believe got the minor updates. Basically phased tower equipment is what changed in there. But the plans are still for AT&T's cell tower equipment/cabling and base shelter deployment at this site. Please call me if more questions arise.

Best,

Alex Murshteyn
