

City of Portland
Fire Department
55 Portland St.
Portland Maine 04101

May, 23th 2016

Fire Prevention Officer:

Please accept this letter as a way of fulfilling the fire departments requirements for a building permit. I have included this letter along with an application for building permit to the department of permitting and inspections.

Allagash Brewing Company is applying for a building permit for 425 square feet of excavation and slab improvements at the facility at 50 Industrial Way. The work will be outside the building and not affect building exits.

There is no fire protection required for this project. There are no new bathrooms or elevators included in this project.

If you require any additional information for the permitting of this work please do not hesitate to contact me directly. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read "CP", is written over a horizontal line.

Chris Pickles
Process Engineer
