RE: Allagash Brewing Company Pavilion Structure at Existing Outdoor Patio

CC: file

Dear Building Inspections,

Attached are the Administration Authorization and Outdoor Dining Patio permit applications, along with site and structural drawings for the new 27' 41' timber-framed structure to be erected at the existing Allagash Brewing Company Patio. We have also attached the Occupancy permit for alcohol service at the existing patio, granted in 2013. The new timber pavilion structure will offer shading and weather protection (rain) during the 3 seasons it is open.

Please contact Sean Diffley at Allagash Brewing Company (207-878-5385) regarding payment of the application fees.

Thank You,
Michael F. Hays, Architect
