MEMORANDUM 11.3.14

DATE: November 3, 2014

RE: Form Systems-200 Riverside Industrial Parkway

Driveway Curb Cut Waiver Request:

The driveway entrances to Form Systems and its neighboring business property to the northeast are existing and closer to each other than currently permitted by the city of Portland. We request a waiver for this existing condition as site topography, parking, building location and site conditions make adjustment of the curb cut impractical.

Thank you for your consideration and please call with any questions.

Regards-

Joe Delaney
