Hi Jean,

I was just looking at today's agenda, and checking back in my files. I apologize, I had thought that I sent you these memos after last week's meeting!

Same standard things on both. The only thing I questioned was the rain garden on Lot 15. It wasn't clear to me if that was new. It discharges to the adjacent property, so I think they do have to provide some discussion of stormwater on that.

I also looked back at Lot 2, and they should provide a stormwater maintenance plan like they did for that lot.

Any questions, let me know, we can discuss today.

Thanks,

Lauren
