---

Please go ahead and enter another complaint and schedule an inspection. I did speak to the home owner previously and advised her of the code regarding loose chickens.

Dear code enforcement,

My neighbors at 106 Tucker Ave have 6 chickens that they let loose to roam freely. I reviewed the regulations for chickens in Portland and they are simply not following the rules. The coop is right on my fence and is generally unkempt.

This is my second time contacting code enforcement. The first time I called the officer called me back saying he would speak to them about being good neighbors. These chickens are a nuisance and have no place in our neighborhood.

Attached are photos of the chickens roaming and the coop location.

Regards,

Joe Micucci
