Ann,

I am sending you our drawings for your records to verify the sizes for the signs that we are making for AdvancePierre Foods' rebranding project of the two Barber Foods locations at St. John Street and Milliken Street. The fabrication methods and materials are described beneath each individual sign. We will be installing these signs in the same locations that are indicated on the documents that Mike Cushing submitted to you in his application. You can send the sign permits directly to him.

You will also see a note beneath the 4' x 16' aluminum panels that were intended to be placed on the existing single face sign at Milliken Street which states that this sign is now on hold pending issuance of a permit. We will not be changing this sign until some action is decided upon by Barber Foods. I have notified Mike Cushing of the problem that this sign doesn't exist according to your records and only a sign that conforms to the smaller allowed size of 35 square feet would be permitted unless he can secure a waiver through the Planning Review process. I am taking a look at the structure today to have AdvancePierre Foods consider their options. In the meantime we won't be touching this sign.
